## **SSDG Interiors Announces a New Partner**

As an SSDG Interiors insider, we wanted you to be among the first to hear our exciting news - with the retirement of founding partner Keath Seeton, our own veteran associate Julie Campbell has bought his share of the business and has joined the leadership team with Gerry Shinkewski and Susan Steeves!

A long standing associate with SSDG, Campbell joined the firm in 2000. During that time she has emerged as a leader in business, design and marketing, a powerful combination and formidable force for SSDG. Combining great design with a team approach, Julie builds trust by listening to her clients and offering unique and innovative solutions that integrate design with image and brand.

As an employee with SSDG for more than a decade, Julie is a natural fit as Keath's successor. She knows our team, our clients, and our brand and exemplifies the design approach for which we are known and respected. Julie's collaborative approach, strong work ethic, and passion for what she does will continue to deliver thoughtful design and unique spaces to our clients.

Seeton Shinkewski Design Group Ltd. (SSDG) was founded in 1980 by Keath Seeton and Gerry Shinkewski. SSDG's succession planning started back in June 1996, when Susan Steeves, a seven-year employee of SSDG, purchased one-third of the company. SSDG has grown into a strong, stable and sustainable company with 22 talented professionals.

We are very excited about the future of SSDG and look forward to continuing the great working relationships we have established with all of you.

Signed,

Susan and Gerry
